Format for Report on Project

• Short Objective statement
  – What problem were you trying to solve or what objective were you trying to accomplish

• Applicability to others in the class

• Resume of team
  – Who made up the team and what expertise in the field of study each brought to the project

• Approach used
  – How you went about solving the problem in general terms
• How to recreate the solution (assuming you solved the problem) or how you tried to solve the problem and what road blocks prevented the team from reaching a solution – in other words how to not go about trying to solve in future!
• Should be minimum of 5 pages, with the bulk of the material being included in the section “how to recreate”.
